# Netscape - Versions 7.1 and newer
Settings changes to allow Pop-ups required for CM/ECF to display.

If Netscape is currently open, please close all windows and open a new Netscape window.
On the toolbar choose "Edit\Preferences"

Within the "Preferences" window click the arrow next to "Privacy & Security" then click on "Popup Windows". If the checkbox next to "Block unrequested popup windows" is checked you can uncheck it to allow all popups or you can follow the below steps to allow the ones necessary for CM/ECF.
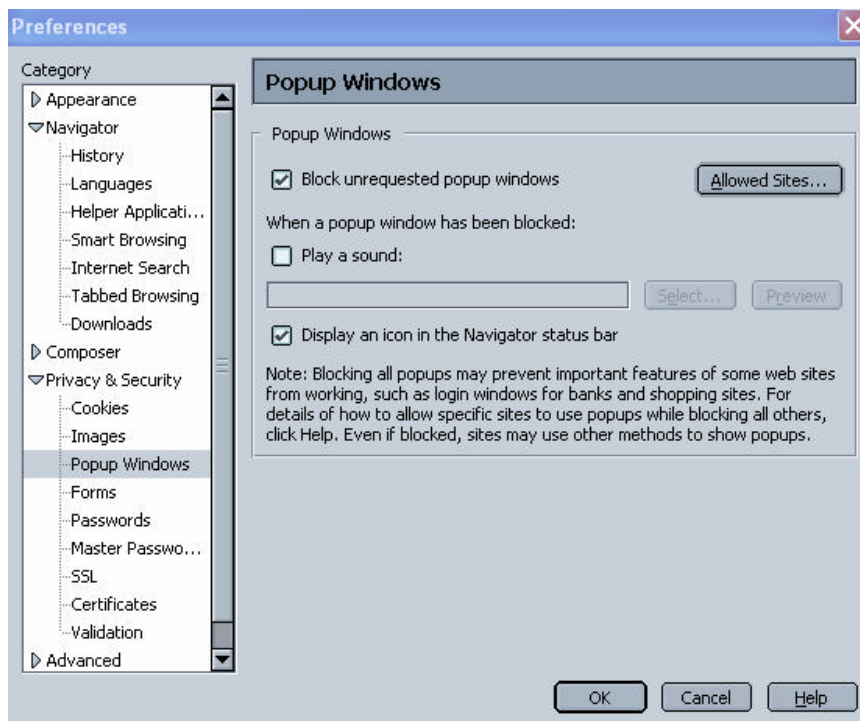

Click on the "Allowed Sites" button.

In the address area, type in "uscourts.gov" and click the "Add" button. This will put the "uscourts.gov" web address into the allowed list.

Once this is done, click on the "OK" button, then click on the "OK" button in the "Preferences" screen to close this window.

Now you should close "Netscape" and open a new "Netscape" window. You should be able to receive the pop-ups necessary for CM/ECF.
